SKILLS

I am completing my training as a Montessori guide and am able to present lessons, perform assessments, communicate with parents and manage a classroom. My Special Education training has helped me learn to create adaptations and modifications for students, write IEPs, conduct parent interviews, collect data to monitor progress, and adapt instruction according to the data collected. I am capable of supporting struggling readers through small group interventions.

EXPERIENCE

I have experience working within an inclusive, Montessori environment. I have presented lessons, performed assessments and collected data. I have communicated with parents and managed a classroom. I have performed parent interviews and developed IEPs based on the student's current levels of performance and the family's preferences. I am experienced in working with students who are struggling readers through one on one or small group tutoring.
